PT. Grestenan Ramadhani, an IT services company located in Bintaro Tangerang, provides hardware and software solutions for small and medium enterprise. Our company keeps growing and expanding, therefore we need young, talented, and creative people who enjoy the challenge to be one of our team members as:

Java Programmer

- D3/S1, fresh graduate from university located in Yogyakarta, Central or East Java majoring in information technology
- Age Range 22-30 years old
- Familiar with Java Programming (Java J2EE, JSP, Servlet, SQL)
- Having knowledge of Jboss, Jbase, XML, Framework will be an advantage
- Fast learner, self motivated, high quality attitude
- Ability to work under pressure and to work long hours and handle several issues at one time.
- Able to work under minimum supervision as well as in a team.
- We offer very attractive salary and outstanding benefits.
- Most of our clients are multinational company which have a large IT environment and valuable experience in international scale projects.
- You will always learn new things as our projects always adopt latest technology and best practice available in the market.
- We offer an encouraging environment that puts the emphasis on teamwork. Your professional skill will grow as fast as your technical skill
- Good command in English both oral and written is an advantage

If you are confident to take this challenge, send your **application letter along with detailed resume to email sinung.setianto@grestenan.co.id**.
